

Sinclair Broadcasting forcing their stations to air an anti-Kerry smear campaign days before the election?? How can they get away with it. It is a total partisan move to influence the election. It's the FCC obligation to enforce the law and keep the public airwaves (that they use free of charge) benefitting the public. Maybe if there was a anti-Bush movie airing also. Maybe "Fahrenheit 911" can be aired as well. How about the pro-Kerry movie "Going Upriver". Sinclair group is betting that it can do whatever it wants and the FCC will license them again because they are a powerful corporation and if Bush wins they will be forgiven for any violation. The FCC needs to act on this NOW, before the election.

Sincerely,
Rene Suarez
